

Series Statement Fields Guidelines

440 field has been made obsolete. This page is to provide guidance for cataloging under the new guidelines.

- **NCSU Implementation:**
 - Follow the guidelines below for original cataloging.
 - Do NOT flip 440's to 490/830 in new copy cataloging.
 - Marcive will (for free) convert 440 fields to 490/830 as part of our monthly processing. New copy cataloging will, therefore, be corrected when records are returned from Marcive.
 - We will not be doing any retrospective work at this time.
-

Coding for 490 first indicator definitions:

The definition of "0" will not change.

The following new definition for "1" is now valid:

- 1st indicator--Series tracing policy The series has no corresponding added entry (not traced) or has a corresponding 800-830 series added entry field (traced differently).
 - 0 - Series not traced
 - No series added entry is desired for the series.
 - 1 - Series traced in 8XX field
-

New Definition:

When value "1" is used, the appropriate field 800-830 is included in the bibliographic record to provide the series added entry.

Examples

490 1#\$aUniform crime reports

830 #0\$aUniform crime reports (Washington, D.C.)

(The established form of entry for the series includes a parenthetical qualifier)

—

490 1#\$aDepartment of the Army pamphlet ;\$v27-50

830 #0\$aDA pam ;\$v27-50.

(The established form of the series is different from the series statement appearing on the item.)

—

490 1#\$aDepartment of State publication ;\$v7846.\$aDepartment and Foreign Service series ;\$v128

830 #0\$aDepartment of State publication ;\$v7846.

830 #0\$aDepartment of State publication.\$pDepartment and Foreign Service series ;\$v128.

(The series statement contains a numbered series and a subseries, and both are to be traced separately.)

—

490 1#\$aThe Pediatric clinics of North America ;\$vv. 2, no. 4

830 #4\$aThe Pediatric clinics of North America ;\$vv. 2, no. 4

—

490 1#\$aBibliographies of modern authors,\$x0749-470X ;\$vno. 27

830 #0\$aBibliographies of modern authors (San Bernardino, Calif.),\$x0749-470X ;\$vno. 27.
